

SECURITY

has to be the very first consideration when transporting large volumes of loose, heavy coins. Trust **TheftGard*** poly pouches to track shipments and ensure that any attempt to tamper with the bag contents will become immediately evident.

Tough, **TheftGard*** bags are superior to traditional canvas bags and can be printed with your company's logo. Please see all of the features listed below.

When it comes to innovation and reliability, you can count on **Belle-Pak Packaging** to provide the best selection and quality.

SECURITY TRANSFER BAGS

TheftGard*

RECEIPTS & TRACKING

Tear-off receipts are sequentially numbered and match the pouch and bar-code for easy tracking.

TAPE CLOSURES

Extremely aggressive tape holds the pouch securely allowing for a carrying capacity of up to 50lb (22.7kg) of coins.

CLEAR FILM

TheftGard* security bags are made from clear film so content identification is quick. Easy-to-write-on, white surfaces require no special pens.

CUSTOM PRINTING

Belle-Pak is a flexo printer and converter: therefore, customizing an order with your company logo is easy.

CONVENIENCE

TheftGard* coin pouches are designed for one-time use. They are approved by major banks and armored car companies to replace dirty canvas bags. No more lost tags, seals, crimpers and bag returns. Pouches are available with single or double, reinforced handles providing reliable and easy grip (as shown).
