

SECURITY

has to be the very first consideration when transporting currency, checks or sensitive documents. Trust **TheftGard*** security transfer bags to track shipments and ensure that any attempt to tamper with the bag contents will become immediately evident.

Strong, **TheftGard*** bags are superior to traditional courier pouches and can be printed with your company's logo. Please see all of the features listed below.

When it comes to innovation and reliability, you can count on **Belle-Pak Packaging** to provide the best selection and quality.

SECURITY TRANSFER BAGS

TheftGard*

RECEIPTS & TRACKING

Tear-off receipts are sequentially numbered, matching the bag and bar-code for easy tracking.

TAPE CLOSURES

Extremely aggressive, tamper-evident tape holds the bag securely and provides an immediate indication that the seal has been compromised.

CLEAR OR WHITE FILM

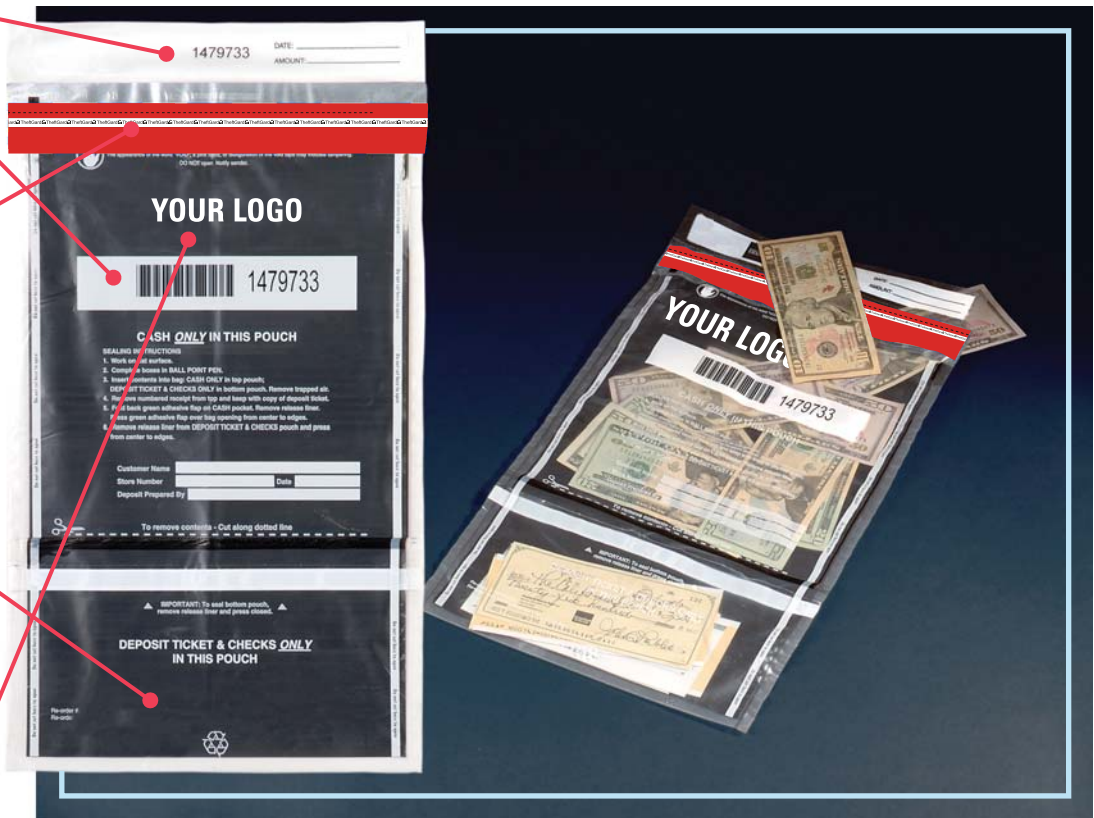

TheftGard* security bags are made from clear film with an opaque back panel for easy content identification. Easy-to-write-on, white surfaces require no special pens.

CUSTOM PRINTING

Belle-Pak is a flexo printer and converter: therefore, customizing an order with your company logo is easy.

CONVENIENCE

TheftGard* vertical twin security bags are designed for one-time use. They are approved by major banks and armored car companies to replace conventional pouches. The bags are clean and easy to work with.
